Manufacturer Service Campaign issued - Campaign #ESS SPECIAL SERVICE CAMPAIGN ESS - - REMEDY NOTICE CERTAIN 2004 - 2011 MODEL YEAR - TOYOTA SIENNA (2WD) VEHICLES EQUIPPED WITH A SPARE - TIRE EXCESSIVE CORROSION OF THE SPARE TIRE CARRIER - CABLE - Status: Remedy Available Locate an authorized Toyota dealer near you to schedule an appointment - Learn more about this campaign
<p>Description: Toyota has received reports indicating that some vehicles may experience spare tire carrier or carrier cable corrosion after being inspected and/or repaired as part of a previous Special Service Campaign. During normal usage, water splashing rearward can reach the spare tire carrier due to variation in the placement of the foam splash guard or loss of the splash guard. If the splashed water contains high concentrations of road salt, corrosion of the spare tire carrier and carrier cable may result. In limited instances, the spare tire may become separated from the spare tire carrier and create a road hazard that could cause a vehicle crash. Toyota has revised the inspection and remedy procedures for this Special Service Campaign. All owners of affected vehicles in Warm Climate States are now eligible for an inspection of the spare tire carrier assembly and cable.</p> <p>Remedy: Toyota dealers will be requested to inspect and, if necessary, replace the entire Spare Tire Carrier with an improved one. This replacement will be performed at NO CHARGE to the customer.</p>

CARFAX Glossary

Accident Indicator

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada.

Not every accident is reported to CARFAX. As details about the accident become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- According to the National Safety Council, Injury Facts, 2015 edition, 8% of the 254 million registered vehicles in the U.S. were involved in an accident in 2013. Over 74% of these were considered minor or moderate.
- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 5/2/20 at 10:01:37 PM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

California Damage Reports:

- Provide an estimate of the extent of damage in its accident reports for the following:
 - MINOR : The vehicle damage affects only appearance, dents, glass, cracks, trim
 - MODERATE: Damage to one-fourth of the vehicle or less. Examples include entire fender, grille, quarter panel, door, hood.
 - SEVERE / MAJOR: Damage to more than one-fourth of the vehicle. Examples include entire side, rear end.
- Are required if the estimated damage exceeds \$500, or \$750 as of January 2003

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
