

2011 HYUNDAI **SONATA**

LIMITED IN PHANTOM BLACK METALLIC

Think About Design

THE FUTURE IS HERE. AND IT'S SHAPING UP NICELY.

When our flagship Genesis sedan was introduced a while back, a lot of people were shocked. What was Hyundai doing building a car to compete with the likes of Lexus, BMW and Mercedes-Benz? Well, consider this an aftershock: Introducing the all-new 2011 Hyundai Sonata. Like its larger sibling Genesis, Hyundai Sonata was built to challenge the status quo. How? It starts with Design. At the studios of our California Design Center, the all-new Hyundai Sonata was conceived with the needs of car buyers here in America in mind. It's built in America, too, at our state-of-the-art assembly plant in Montgomery, Alabama.

WITH A DRAG COEFFICIENT OF JUST 0.28, IT CHEATS THE WIND. AND THE GAS STATION.

Looking around at the competition, our designers sensed the desire for something less staid. More expressive. An affordable, fuel-efficient four-door sedan with a coupe-like silhouette, yet spacious enough inside for your family. So Sonata was shaped by our designers into a form that flows with energy. Inside, it's bigger where you need more room. In fact, the mid-size Sonata meets the EPA's Large Car classification. It's more powerful, too, thanks to a fuel-efficient 2.4L Gasoline Direct Injection (GDI) 4-cylinder engine – the first car in its class to offer GDI technology standard.

LIMITED IN PACIFIC BLUE PEARL

THE NEW SONATA DOES WHAT GOOD DESIGNS DO: MAKE YOU WANT TO INTERACT WITH IT.

Where do automotive shapes come from? Who sculpts the lines that define new, more modern forms? The design of the new Sonata comes from California, where our 90,000-square-foot Design and Technical Center is home to some 200 designers, engineers, model makers and technicians. It's just down the road from our U.S. headquarters, so our designers can feel the pulse of the American market and anticipate the level of sophisticated style and technology that demanding drivers like you expect from your next automobile.

Here's what we know for sure: You want a car that not only looks stunning, but is built to last. Which explains why, in addition to our Design Center, we've built an Engineering Center in Ann Arbor, Michigan and spent more than \$60 million to make our California Proving Ground one of the most comprehensive and advanced vehicle testing facilities ever built. Anywhere.

SONATA

HMA 280

LIMITED IN BLACK LEATHER

A black and white photograph of a car's interior, focusing on the driver's side. The image shows the dashboard, steering wheel, center console, and passenger seat. The car has a modern, sleek design with a dark interior. The text is overlaid on the lower right portion of the image.

Think About Sophistication

AN INTERIOR DESIGNED TO ORGANIZE INFORMATION. AND INSPIRE CONFIDENCE.

The design of an automotive interior is an exercise in making the complex simple. In the all-new Sonata, information critical to the driver is organized within a gauge cluster that includes two large, round dials. And controls for the audio and climate control systems that are easy for both the driver and front passenger to operate intuitively. Each knob and every switch is exactly where your fingertips expect them to be.

LIMITED IN BLACK LEATHER

SO ROOMY, IT EVEN OUTCLASSES ITSELF.

Our interior designers made Sonata bigger where you needed more room. In fact, the mid-size Sonata is so much roomier, its total interior volume actually meets the EPA's classification for Large Cars. So no matter which Sonata model you choose – GLS, SE or Limited – you'll enjoy a surprising amount of space. And just as important is what all that space contains: Sonata is the first vehicle in its class with standard integrated Bluetooth® hands-free phone capability. It's the first with factory-installed HD Radio™ Technology with Multicasting.¹ And touchscreen navigation is available on every trim level.

PROXIMITY KEY

Carry the Proximity Key on your person, and you'll be able to open the door and start the car without ever inserting an actual key. Standard on both SE and Limited models.

GAUGE CLUSTER

Sonata presents the driver with two large, easily legible dials. On the left, the tachometer. On the right, the speedometer. Set into deeply shrouded bezels to minimize glare, and backlit by a soothing blue light, the dials surround a center bridge with gauges for fuel and water temperature.

8-WAY POWER DRIVER SEAT

With its foam cushions made from soy beans, the 8-way power driver's seat (standard on SE and Limited) is certainly eco-friendly. And with firm support and power lumbar controls, it's friendly, period. Sonata is also the first in its class to offer heated rear seats (standard on Limited).

4 GOLF BAGS AND MORE

Open the trunk lid: That's 16.4 cubic feet of cargo room, just waiting to be filled. So go ahead, volunteer to drive the entire foursome.

CD-IN

Navigation screen displaying a map with a red route. The screen shows a grid of streets including 8th Ave, 7th Ave, 6th Ave, Park Ave, and 3rd Ave. A red route is highlighted, starting from a location marked '0.25mi' and heading towards a destination. A 'Recommended' route summary is shown on the right side of the screen, listing: 12 mi (FWY), 0.0 mi (Toll Road), and 0.0 mi (Ferry). The screen also displays '14 0:17' (14 miles, 0:17 hours) and '3:01' (3:01 minutes). A 'Start Guidance' button is visible at the bottom left of the map area, and an 'Alternative Route' button is at the bottom right.

Central control panel featuring a rotary knob with 'PUSH POWER' and 'VOLUME' markings. Surrounding the knob are buttons for 'FM/AM', 'XM', 'SEEK TRACK', 'MEDIA', 'PHONE', 'DISP', 'MAP', 'ROUTE', 'DEST', 'TUNE', 'SETUP', and 'ENTER'.

Climate control buttons including 'AUTO' and 'OFF'.

Climate control buttons including 'A/C' and 'DUAL'.

Climate control dial with temperature markings (65, 75, 85) and fan speed indicators.

Climate control dial with temperature markings (65, 75, 85) and fan speed indicators.

PASS AIR BAG button.

ENGINE START STOP

IF TECHNOLOGY IS THE PRICE OF ENTRY, CONSIDER US PAID. IN FULL.

Sit inside the all-new Sonata, and you'll be surrounded by features capable of doing things that will transform your expectations of what a car can do. Whether it's technology designed to enhance your enjoyment of the audio system, offer visual aids to assist the driver, or simply make your travels more relaxing, the 2011 Sonata raises the bells-and-whistles bar.

BACKUP CAMERA

With guidelines that rotate with the steering wheel, reversing out of driveways and parking spaces is easy thanks to a backup camera that's optional on Limited.

HOMELINK®

Garage doors, gates, home lighting and security systems can all be operated at the touch of a button with HomeLink, which is integrated into Sonata's electrochromic auto-dimming rearview mirror.¹

iPOD® / USB CONNECTIVITY

Take your music with you. Portable MP3 players plug right into Sonata, so you can select songs from your playlist and listen to them through your Sonata's audio system. And it's standard on all models.²

NEW AUDIO DIMENSIONS

Sonata's top-of-the-line tunes – an optional Dimension® AM/FM/XM®/CD/MP3 audio system with subwoofer and 360-watt external amp, or premium Infinity® AM/FM/XM®/CD/MP3 system with 8 speakers, subwoofer and 400-watt external amp – give music more dimension.³

BLUETOOTH® CONNECTIVITY

With Bluetooth installed as standard equipment, you can connect your Bluetooth-enabled phone to Sonata's built-in mic and stereo speakers.⁴

XM® SATELLITE RADIO

Sonata comes with XM Satellite Radio (3-months free). You'll enjoy more than 170 channels of digital radio. Sports, talk, comedy, news and the most music on satellite radio are available in crisp digital sound quality coast-to-coast.⁵

¹HomeLink® is a registered trademark of Johnson Controls, Inc. ²iPod® is a registered trademark of Apple Inc. ³Infinity® is a registered trademark of Harman International Industries, Incorporated. ⁴The Bluetooth® wordmark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Hyundai is under license. Other trademarks are those of their respective owners. ⁵XM® Satellite Radio and XM® NavTraffic require XM subscription, sold separately after complimentary introductory period. All fees and programming subject to change. Traffic and weather channels only available in 21 metropolitan markets. See your dealer for details. XM service only available in the 48 contiguous United States. The XM name is a registered trademark of XM Satellite Radio Inc. All other trademarks are property of their respective owners.

SE IN HARBOR GRAY METALLIC

Think About Performance

HOW YOU HANDLE CERTAIN SITUATIONS SAYS A LOT ABOUT YOUR CHARACTER.

An automobile confronted with slippery roads shouldn't panic. When the pavement beneath it is rough, uneven or peppered with potholes, a sedan shouldn't lose its composure. As it winds through a twisty mountain pass, a car can't lose its cool.

It's those kind of character-building experiences that our engineers recreate everyday at our 4,300-acre California Proving Grounds. The remote desert facility was constructed to simulate the roads and highways across North America in order to test and refine our industry-leading safety systems, such as our Electronic Stability Control and standard side-impact airbags. Our commitment to the development of safe, reliable, high-quality vehicles - designed especially for the North American driver - must be proved every day.

LIMITED IN RADIANT SILVER

MORE HORSEPOWER THAN ANY NATURALLY-ASPIRATED 4-CYLINDER ENGINE IN ITS SEGMENT.

Hyundai engineers gave Sonata plenty of power from its 2.4-liter engine – 198 horsepower to be exact (200 horsepower on our SE model). Do the math, and that means Sonata gets 82.5 horsepower per liter. It's a measure of efficiency the engineers call Specific Output, and it's another way Sonata outperforms 4-cylinder sedans like Camry, Accord, Altima and Fusion.

DUAL-CVVT ENGINE

Dual Continuously Variable Valve Timing modulates the engine's intake-valve timing relative to the exhaust valves. The result is improved response and fuel efficiency at all engine speeds, as well as a smooth idle and lower emissions.

SHIFTRONIC® TRANSMISSION

A 6-speed automatic transmission with SHIFTRONIC is electronically controlled and adapts to your driving habits. SHIFTRONIC offers the convenience of an automatic transmission, combined with the ability to tap “down” to downshift and tap “up” to upshift through six closely spaced ratios for optimum control.

FUEL EFFICIENCY

To help the all-new Sonata deliver powerful response without sacrificing fuel efficiency, the 2.4-liter engine employs Dual Continuously Variable Valve Timing along with a Variable Intake System.

PADDLE SHIFT

Sonata is engineered to satisfy those of you who expect a little excitement behind the wheel. Case in point: The available steering wheel-mounted paddle shifters on the SE model let you control precisely when to upshift or downshift through the 6-speed automatic transmission.

LIMITED IN PHANTOM BLACK METALLIC

DRIVING SECURITY STARTS WITH THE WAY AN AUTOMOBILE ACCELERATES, STEERS AND STOPS.

If you haven't taken a test drive in the new Sonata, here's what to think about when you do. After you've settled into the driver's seat and fastened your seatbelt, try to focus on the way Sonata feels when you launch from a standstill. Does it pull away without losing its grip? That's Sonata's standard Traction Control at work. Steer into a curve. Does it feel like it's on rails? That's the standard Electronic Stability Control doing its job. Now hit the brakes. Standard ABS and Brake Assist help Sonata come to a swift, sure stop. It's all part of how Hyundai engineers driving confidence.

SOPHISTICATED SUSPENSIONS

Sonata features sophisticated suspension and steering hardware with refined tuning for the GLS and Limited trims – and a sport-tuned suspension for the SE model.

TIRE PRESSURE MONITORING SYSTEM

Each of Sonata's wheels is equipped with an air pressure sensor located at the valve stem. When the pressure of any tire falls below its optimal level, a warning light on the instrument panel alerts you, helping to avoid dangerous situations that could arise from driving on underinflated tires.¹

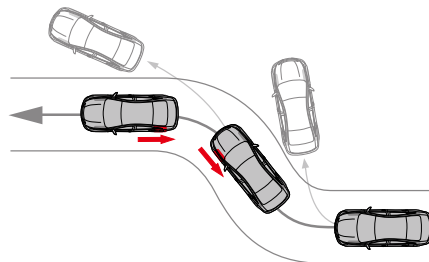

ANTI-LOCK BRAKING SYSTEM

Sonata's Anti-lock Braking (ABS) helps preserve steering control in emergency braking situations. The ABS will rapidly pulse the brakes of the wheel (or wheels) that begin to lock up. This helps the driver to maintain steering control while braking.

BRAKE ASSIST

Statistics show that drivers frequently don't brake hard enough in emergency situations. Brake Assist senses a panic stop and immediately applies the maximum braking pressure to help you stop faster. Because sometimes a few extra feet can make all the difference.

ELECTRONIC STABILITY CONTROL

Sonata was the first midsize car under \$20,000 to standardize Electronic Stability Control back in 2005. Today, it continues setting a new standard. Onboard is an active safety system that automatically applies the brakes to individual wheels and adjusts throttle input as needed to help keep your Sonata on its intended path.²

TRACTION CONTROL SYSTEM

For greater control when accelerating or driving in the wet, the Traction Control System that's standard on Sonata automatically reduces engine power and/or applies braking when slippage is detected, effectively rerouting power where the grip is greatest.³

¹TPMS is not a substitute for proper maintenance. See Owner's Manual for details. Spare tires are not equipped with TPMS. ²Electronic Stability Control (ESC) cannot control your vehicle's stability under all driving situations. ESC is not a substitute for safe driving practices. No system, no matter how advanced, can overcome physics or correct poor driving. The driver is always responsible for controlling the vehicle and must use caution to avoid loss of control in all driving conditions. Speed, road conditions and driver steering input will affect whether ESC can help prevent loss of control. See Owner's Manual for details. ³The Traction Control System (TCS) is meant to enhance conscientious driving habits and is not a substitute for safe driving practices.

SE IN VENETIAN RED

HOOD STRUCTURE

Sonata was designed with hood-buckling creases to help protect you in an impact from any direction.

THE SAFETY FEATURES STANDARD ON EVERY SONATA REFLECT A FUNDAMENTAL HYUNDAI PRINCIPLE.

It's our belief that a car's core function is to inspire confidence. So we made sure Sonata comes standard with six airbags and active front head restraints designed to help protect in the event of a collision. And technologies including Electronic Stability Control, ABS with Electronic Brake-force Distribution and Brake Assist, a Tire Pressure Monitoring System and an available rear backup camera to help you avoid accidents in the first place.

BODY BUILDING

Hyundai engineers built Sonata with a reinforced unibody constructed from high-tensile steel to effectively absorb collision energy. They also engineered it with rear crumple zones and bodystyle reinforcements.

SIX AIRBAGS

Sonata comes standard with six airbags, including the advanced front airbag system that automatically determines if – and with what level of power – the driver and/or passenger front airbags will inflate based on occupant weight and height, as well as impact speed.¹

ACTIVE FRONT HEAD RESTRAINTS

Sonata's active front head restraints are designed to provide extra protection against whiplash in rear-end collisions by moving up and forward to help cushion the head.

FRONT SEATBELT PRETENSIONERS

Front seatbelt pretensioners automatically “cinch up” to reduce slack and optimally position the occupant in case of airbag deployment. Force limiters are also designed to “give” a little, to help reduce peak belt loads to the occupant's torso in certain high-impact frontal collisions.

CHILD SEAT ANCHOR

Correctly fastening a child safety seat to the rear seat of Sonata is easy, thanks to the expertly engineered LATCH system.²

¹The Supplemental Restraint System (SRS) is designed to work with the 3-point seatbelt system. The SRS deploys in certain frontal and/or side-impact conditions where significant injury is likely. The SRS is not a substitute for seatbelts, which should be worn at all times. Children under the age of 13 should be restrained securely in the rear seat. NEVER place a rear-facing child seat in the front seat of a vehicle that has a passenger-side airbag. ²Child Safety Restraint System designs vary. Always consult instructions provided by manufacturer before installing.

SE IN RADIANT SILVER

SONATA HITS THE HIGHEST DRIVER SATISFACTION NOTES EVER MEASURED.

Recently, the 2011 Hyundai Sonata was named as the inaugural winner of the AutoPacific® President's Award¹ – an honor bestowed on Hyundai after Sonata earned the highest driver's satisfaction score ever recorded by this automotive research firm. How did Hyundai earn AutoPacific's highest-ever rating? It's simple: By never being satisfied.

TEN YEARS FROM NOW, WE'LL STILL BE BACKING THE HYUNDAI YOU BUY TODAY.

What does a warranty say about a car? If your car is a Hyundai backed by America's Best Warranty, it says: Relax. We've got your back. We're so confident in Hyundai quality, we'll stand behind our car – your car – for 10 years. So whatever the next decade brings, your Hyundai is covered.¹

2011 SONATA LINE-UP

SONATA GLS

Key Standard Equipment:

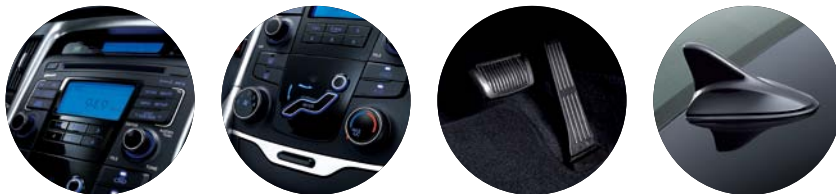

- 2.4L Gasoline Direct Injection (GDI) 4-cylinder engine
- 6-speed manual transmission / 6-speed automatic (optional)
- 16-inch steel wheels with full covers
- Electronic Stability Control with Traction Control System
- ABS with Electronic Brake-force Distribution and Brake Assist
- Tire Pressure Monitoring System
- Front active head restraints
- Front, front seat side and side curtain airbags
- Bodycolor front grille and chrome window belt-line moldings
- Solar control glass
- Tilt-and-telescopic steering wheel with cruise, audio and phone control
- Metalgrain interior accents
- AM/FM/XM®/CD/MP3 audio system
- iPod®/USB auxiliary input jacks
- Remote keyless entry and alarm
- Power windows & locks
- Air conditioning
- Advanced trip computer with custom settings
- Integrated Bluetooth® with phonebook transfer
- Eco indicator
- Daytime Running Lights (DRL)
- Heated side mirrors

Popular Equipment Package:

- 16-inch alloy wheels
- 8-way power adjustable driver seat with lumbar support
- Leatherette interior door panel inserts
- Chrome interior door handles
- Automatic light control

Popular Equipment Package Plus Navigation:

- Requires Popular Equipment Package
- + Navigation system with high-resolution touch-screen display
- + HD Radio™ Technology with Multicasting (late availability)
- + 360-watt Dimension® premium audio system

SONATA SE

GLS Popular Equipment Package Plus:

- + 2.4L Gasoline Direct Injection (GDI) 4-cylinder engine
- + 6-speed automatic with steering wheel mounted paddle shifters
- + 18-inch Hyper Silver alloy wheels with Performance tires
- + Sport-tuned suspension and steering
- + Dual exhaust
- + Front fog lights
- + Dark chrome front grille
- + Chrome exterior door handles
- + Proximity entry with push-button start
- + Sport seats featuring leather bolsters with cloth inserts
- + Leather-wrapped steering wheel & shift knob

Navigation and Sunroof Package:

- + Power tilt-and-slide sunroof
- + Navigation system with high-resolution touch-screen display
- + HD Radio™ Technology with Multicasting (late availability)
- + 360-watt Dimension® premium audio system

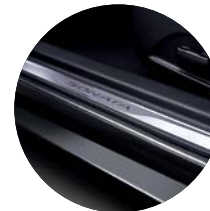

Never program your navigation system while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. On trim levels where navigation system is available but not a standard feature, it is available as part of a specific options package. See dealer regarding availability. The navigation system on the Sonata replaces the six-disc in-dash CD player and deletes the iPod®/USB auxiliary input jacks. Other option packages upgrade or replace specific equipment on all trim levels.

SONATA LIMITED

SE Equipment Plus:

- + Power tilt-and-slide sunroof
- + 17-inch alloy wheels
- + Side mirror turn signal indicators
- + Leather seating surfaces
- + Heated front and rear seats
- + Dual automatic temperature control
- + In-dash 6-disc CD-changer
- + HD Radio™ Technology with Multicasting (late availability)
- + 360-watt Dimension® premium audio system
- + Unique interior accents (Piano Black or Woodgrain)
- + Floor console-mounted rear vents
- + Premium door sill plates with "Sonata" badge
- + Auto-dimming rearview mirror with HomeLink® and compass
- Deletes sport-tuned suspension, steering and dual exhaust
- Deletes steering wheel mounted paddle shifters

Navigation Package:

- + Navigation system with high-resolution touch-screen display
- + Rear backup camera
- + 400-watt Infinity® audio system
- + HD Radio™ Technology with Multicasting (late availability)
- Navigation package deletes in-dash 6-disc CD changer.
